## TO OUR EXHIBIT PARTNERS

### Support For San Antonio Breast Cancer Symposium® (SABCS)

Commercial firms, industries, corporations, foundations, and other organizations that share its mission to prevent and cure breast cancer and are interested in helping defray the costs of presenting this important international meeting are invited to support SABCS scientific and educational activities, publications, and other products. Funds received from industry are used in accordance with CME standards to defray expenses related to accredited educational activity. A wide array of support opportunities is available. Support in any amount is greatly appreciated. SABCS alone will determine the content of their scientific and educational activities and will own all associated intellectual property. SABCS will also determine the distribution, production, and pricing of the activity's materials.

All pledges of support must be confirmed by written advance notice of the intended support. The terms, conditions, and purpose of support must be documented by a signed agreement from the organization providing the support. SABCS may not enter into an agreement that requires either entity to accept the supporter's advice or services, whether regarding content, the selection of speakers or invitees, or other attributes of the meeting or activity.

SABCS will acknowledge support in program materials as applicable but will not permit representatives of organizations providing support to engage in sales or promotional activities or to distribute commercial, promotional materials in the space where the activity takes place. Display or distribution of promotional materials, including standards related to product-specific

advertisement and other product promotion, before, during, and after an educational activity offered for credit must conform to all applicable Continuing Medical Education (CME) standards.

### Benefits Of Support

To provide 24/7 exposure, we offer multiple opportunities before, during, and after SABCS for you to promote your company/brand through various channels. - Interact and communicate directly with leading decision-makers and other medical professionals specializing in breast cancer research and treatment worldwide.
- Benefit from association with SABCS while helping to ensure the ongoing success of this premier international Symposium.
